## GMP GRADUATE TESTIMONIAL

**SHUBHAM SINGLA (M.M., MPBC)**  
Technical Support Specialist,  
Sutherland Global

*“FVI’s Global Masters Pathway was a great bridging program for me. It is designed in such a way that I became knowledgeable of all aspects of business — in both the domestic and international context.*

*The applied methodology adopted by the faculty in India was very unique. Every FVI professor had their own unique way of teaching which made the program a fun learning experience. The curriculum gave me an awareness of the Canadian education culture which made it much easier to cope up with my masters at the University of Windsor.*

*Once I reached Canada, I had a great advantage over others in my master’s classes as I already knew how to study effectively in a Canadian course and better understood the Canadian culture. This allowed me to give more time to other things such as my job and community involvement.”*
